

## WHAT IS A PUPPY MILL?

Our definition of a puppy mill is any breeder that raises puppies in substandard conditions and places profits over the wellbeing of the puppies. Heres what you may find at a puppy mill.

- No socialization or exercise
- Puppies that are always caged
- Filthy, smelly kennels
- Lots of puppies confined to small areas
- Uncleanliness and filthiness
- Disease and skin conditions
- Puppies and adult dogs that have never been checked by a veterinarian

Puppy mills are cruel and go against how we believe GOD wants us to love and take care of his creatures.

-For every creature of GOD is good, and nothing to be refused,if it be received with THANKSGIVING..... 1 Timothy 4:4
